Project Overview

This Erasmus+ project aims to enhance ecological literacy among young people aged 15-25 in partner countries. The project's key objectives include providing resources and support to youth employees, encouraging sustainable behaviors and attitudes among young people, and supporting the development of innovative interdisciplinary teaching approaches.

Mobility 1: Malta (Completed)

Summary

The first mobility took place in Malta and focused on hands-on ecological activities and developing eco-friendly materials.

Key Activities

1. Seed Ball Activity: Participants created seed balls to promote local plant growth.
2. Beach Cleaning Activity: Participants engaged in cleaning local beaches, raising awareness about marine pollution.
3. Creating Materials from Recycled Items: Participants developed educational materials using recycled materials.
4. Creating an Eco-literate Garden: Participants designed and planted a garden to foster ecological literacy.

Outcomes of TPM-1

1. Increased Knowledge: Participants showed significant improvement in their understanding of ecological issues.
2. Sustainable Behaviors: Participants reported an increase in sustainable behaviors.
3. Innovative Teaching Approaches: Youth employees adopted new interdisciplinary teaching methods incorporating ecological literacy.
